**BASIC SETUP:**

- Each player receives:
  - **(1) tray**
  - **(15) spheres** (3 of each color): Place the spheres in the five slots on the outer edge of the tray
  - **Point Tokens:** (1) 5-point token and (5) 1-point tokens
- Shuffle the task cards and place them face down in a stack.
- Reset the hourglass.

**HOW TO PLAY:**

- Draw the top **six task cards** and place them face up. Each card indicates how you can or cannot position the spheres.
- Flip the hourglass over **start stacking!**
  - Everyone plays at the same time.
  - Use as many or as few spheres as you choose. Stack them up to 3 levels high (max: 11 spheres)
- Tally your points** at the end of the round.
  - Every sphere in the stack is automatically worth one point. This is your starting score.
  - Subtract 2 points for every task that you fail to complete (once per card, not per violation).
- Collect a bonus token if you:**
  - Used at least one sphere of each of the five colors -AND-
  - Completed all six of the task cards. These will act as score multipliers at the end of the game.

**HOW TO WIN:**

- At the end of six rounds, **convert your bonus tokens** into positive or negative points.
