## BASIC SETUP:

1. Collect the 36 puzzle boards and **choose your difficulty level**. (For easier gameplay, use the side with 3 shapes. For more of a challenge, use the side with 4 shapes.)
2. **Fill the slots on the scoring track** with gems. Blue gems go on the left side, amber gems go on the right, and the remaining gems go into the bag.
3. Give each player a **set of 12 unique shapes**.

## HOW TO PLAY:

1. **Select a new board** from the pile and place it in front of you with your chosen difficulty level facing up.
2. Immediately **roll the die** and **flip the hourglass** over.
3. The picture on the die will tell you what row of shapes you can use that round. Find that row of shapes on your board and **select the corresponding pieces**.
4. Try to **fill in the entire white space on your puzzle board** using only those 3 or 4 predetermined shapes.
  - ✓ DO: turn, flip, or rotate any of the pieces as necessary
  - ✗ DO NOT: stack, overlap, or place pieces outside of the white puzzle space.

## HOW TO WIN:

1. **Complete the puzzle as fast as you can.** The faster you finish, the more points you earn.
2. The player with the **most points at the end of nine rounds** wins the game!

## EXTRAS:

- Tutorials, solution keys, and variable timers available through the **free bonus Helper App**
- **Support materials for classroom use** available online
- **Also available:** travel-sized editions, 3D challenges, and a junior version designed especially for younger players
