### Good to know!

You can reorder extra nano-adhesive pads and metal marbles from our website.

You will also need a Gecko Run Starter Set. Its instructions contain all the information about the components and the instructions for safe handling of the Gecko Run parts.

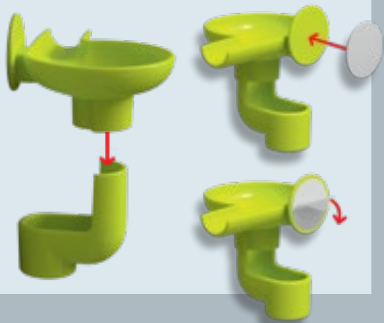

### WARNING!

Not suitable for children under 3 years. Choking hazard — small parts and small balls may be swallowed or inhaled. Keep the packaging and instructions as they contain important information.

## YOUR NEW TRICK

### Twister

With the twister, you can make your marbles really dizzy. Before you can start, connect the twister top and outlet together as shown. Stick a nano-adhesive pad to the back and remove the thin foil from the nano-adhesive side.

## TIPS AND TRICKS

Set up a small test track to get a feel for the characteristics of the twister and find out which entry speed keeps the marble in the twister the longest.

## ★ TIP

**THE TWISTER WORKS BEST WHEN YOU CONNECT IT TO THE TRACK USING A TRACK BRIDGE.**
